Teaching Plan (Academic Year 2022-2023)
Department of Food Technology and Management
B.Sc. FTM I (Semester II)
Subject: Dairy Technology-II
Total Contact Hours: 30 Per Term
Name of Faculty: Nikita Nathaji Jarag

Session no	Name of topics
<u>Unit I Fat rich dairy products</u>	
1	Cream – Introduction
2	Methods of cream separation
3	Physico chemical properties
4	Neutralization of cream
5	Standardization and pasteurization of cream
6	Defects in cream and uses of cream
7	Butter – Introduction
8	Manufacturing of butter
9	Defects in butter and uses
10	Butter oil- Introduction , methods of manufacture
11	Methods of manufacture- centrifugation separation
12	Defects in butter oil and uses
<u>Indian dairy product</u>	
13	Kheer – Introduction , manufacturing, uses
14	Khoa – Introduction , manufacturing, uses
15	Rabri – Introduction , manufacturing, uses
16	Kulfi - Introduction , manufacturing, uses
17	Dahi- Introduction , manufacturing, uses
18	Shrikhand - Introduction , manufacturing, uses
19	Panner and - Introduction , manufacturing, uses
20	Channa - Introduction , manufacturing, uses
21	Lassi - Introduction , manufacturing, uses
22	Revision of unit I
<u>Unit II – Cheese</u>	
23	Introduction , history, definition
24	Classification, composition
25	Manufacturing of cheddar cheese
26	Manufacturing of cheddar cheese
27	Packaging and storage
28	Judging and grading
29	Defects- causes and prevention
30	Assignment and revision
<u>Ice-cream</u>	
31	Introduction
32	Definition and standards
33	Classification

D. N. J.
PRINCIPAL
 College of Non-Conventional
 Vocational Courses For Women
 Kolhapur.

34	Chemical composition
35	Role of constituents
36	Manufacturing , packaging and storage
37	Judging and grading
38	Overrun
39	Defects- causes and prevention
40	Revision

Name of the Teacher: Ar. Amarr N. Mestry.
Class: B.I.D. - IV, Sem - VII
Subject : PROJECT MANAGEMENT
4 Lectures/week 4 x 15 = 60 sessions

Sessions	Topic
1	Brief introduction of subject and syllabus
2	Principles of project management as applied in construction industry
3	
4	Introduction to project management
5	project management model
6	Introduction to project management
7	
8	How construction industry work
9	Application of project management concepts in construction industry
10	Planning and organizing
11	
12	Security and managing resources for project completion .
13	Project management phases
14	Project management phases
15	
16	To study overview of design industry
17	Project phases
18	Scopes
19	
20	Good working relationship with team and client
21	Quality of good project manger
22	Role of project manger
23	
24	Interpersonal relationships and team work
25	Concept of project management
26	Concept of project management
27	
28	Introduction and definition of project management
29	Main objective of project management
30	Principles of project management
31	
32	Importance of project management
33	Phases of project management

Sessions	Topic
34	Introduction to the project management tools
35	
36	Application of project tools like CPM, PERT , to building and interior project
37	Introduction to CPM
38	Problems of CPM
39	
40	Problems of CPM
41	Problems of CPM
42	Problems of CPM
43	
44	Problems of CPM
45	Introduction to PERT
46	Problems of PERT
47	
48	Problems of PERT
49	Problems of PERT
50	Problems of PERT
51	
52	Cost control
53	Quality control
54	Cost management
55	
56	What is project cost
57	Types of project cost
58	Fixed cost
59	
60	Variable cost direct and indirect cost

B. Sc. Food Technology and Management (Entire)
B. Sc (FTM) Part III Semester V
Subject: Beverage Technology -I

Class Test I

Q.1 Multiple choice question.

- 1 are the carbon dioxide dissolved in syrup and water.
 - a. Carbonated beverage
 - b. Non-carbonated beverage
- 2 Sports beverages are called as
 - a. Electrolyte drink
 - b. Isotonic drink
 - c. Hypotonic drink
 - d. Hypertonic drink
- 3 Device is used to crush whole fruit for pressing.
 - a. Hammer mill
 - b. Grinding mill
 - c. Grating mill
 - d. Stone fruit mill
- 4 Stoned fruit mills are used to crush fruit without breaking stones.
 - a. Plum
 - b. Apricots
 - c. Both a and b
 - d. None of above
- 5 device is effective for grape and apple juice processing.
 - a. Bladder press
 - b. Belt press
 - c. Basket press
 - d. Screw press

Q.2 Write a short note.

- 1 Write a note on bladder press and belt press.
- 2 Write a note on packaged drinking water and carbonated water.
- 3 Explain any 2 equipments used in beverage industry.

Q.3 Explain in brief.

- 1 Write in brief about labelling and marketing of drinking water and m

Class Test II

Q.1 Multiple choice question.

1 preservative is added to control unwanted organisms.

- | | |
|------------------------|----------------------|
| a. Sulphur dioxide | b. Sodium hydroxide |
| c. Potassium hydroxide | d. Calcium hydroxide |

2 In apple cider processing fermentation is carried out.

- | | |
|-----------------------------|------------------------------|
| a. Lactic acid fermentation | b. Malo-lactic fermentation |
| c. Citric acid fermentation | d. Butyric acid fermentation |

3 Ripe apples have less than number yeasts present on sound fruits.

- | | |
|--------|--------|
| a. 200 | b. 300 |
| c. 400 | d. 500 |

4 Alitame contain..... % sweetness

- | | |
|---------|---------|
| a. 1000 | b. 2000 |
| c. 3000 | d. 4000 |

5 Sucrose is a.....

- | | |
|-------------------|--------------------|
| a. Monosaccharide | b. Disaccharide |
| c. Trisaccharide | d. Tetrasaccharide |

Q.2 Write a short note

1 Write a note on quality control of apple cider vinegar

2 Write a note on colours

3 Explain microbiology of apple juice

Q.3 Long answer question

1 Explain in brief ingredients used in soft drinks and carbonated drink

Total Marks-[10]

- Instructions:
1. All questions are compulsory
 2. Each question carries one marks

Q1) Choose the correct alternative from given choices. [10]

1. Following is a good source of fibre-----

- | | | |
|---------|------------|--------------------------|
| a. Meat | b. Milk | <input type="checkbox"/> |
| c. Egg | d. Spinach | |

2. -----is considered as good quality protein.

- | | | |
|---------|-----------|--------------------------|
| a. Egg | b. Quinoa | <input type="checkbox"/> |
| c. Rice | d. Barley | |

3. Following is a type of Dialysis-----

- | | | |
|------------------|------------------------|--------------------------|
| a. Haemodialysis | b. Peritoneal dialysis | <input type="checkbox"/> |
| c. Both a and b | d. Angioplasty | |

4. Involvement of brain is seen in following liver condition-----

- | | | |
|--------------------|---------------------------|--------------------------|
| a. Jaundice | b. Hepatic Encephalopathy | <input type="checkbox"/> |
| c. Viral Hepatitis | d. All of the above | |

5. Lactose intolerance is a response of-----system.

- | | | |
|----------------|------------|--------------------------|
| a. Digestive | b. Immune | <input type="checkbox"/> |
| c. Respiratory | d. Nervous | |

6. Celiac disease patients are sensitive for ----- protein

- | | |
|-----------|-------------|
| a. Gluten | b. Collagen |
|-----------|-------------|

c. Albumin

d. All of the above

7. TPN stands for-----

a. Total Palliative Nutrition

b. Total Public Nutrition

c. Total Parenteral Nutrition

d. All of the above

8. Fibre intake should be increased in case of -----

a. Diarrhoea

b. Dysentery

c. Constipation

d. None of the above

9. Type 1 diabetes is mainly due to-----

a. No insulin production

b. Insufficient insulin production

c. Both a and b

d. None of the above

10. Accumulation of ----- crystals in typically in smaller joints is observed in Gout.

a. Monosodium Sodium

b. Monosodium Chloride

c. Monosodium Glutamate

d. Monosodium Urate

Unit Test- I

Subject: Fundamentals of Environmental Science-I

Date: 22/12/2022

Time: 10:00 to 12.00

Marks: 30

Question 1: Multiple Choice Questions

1. Objectives of environmental education:
 - a. Awareness
 - b. Knowledge
 - c. Attitudes
 - d. All the above
2. Three major areas of applicability of the subject are:
 - a. Management of natural resources
 - b. Conservation of ecosystem and biodiversity
 - c. Prevention and control of pollution
 - d. All the above
3. Composition of Nitrogen, oxygen and Carbon in air
 - a. 78%, 21%, 0.03%
 - b. 78%, 21%, 0.003%
 - c. 70%, 20%, 0.04%
 - d. None of the above
4. The attitude of the atmosphere is estimated between ——— from sea level
 - a. 16 to 29 thousand kilometers
 - b. 16 to 25 thousand kilometers
 - c. 16 to 26 thousand kilometers
 - d. 17 to 29 thousand kilometers
5. Composition of stratosphere
 - a. N₂, O₂, CO₂, H₂O
 - b. O₃
 - c. O₂, NO
 - d. O₂, O, NO
6. Distribution of earth's water

- a. 0.001%
 - b. 0.001%
 - c. 0.0001%
 - d. 0.00001%
7. Arrange the soil type with their size
- ~~a.~~ Clay<Slit<Sand
 - b. Clay>Slit<Sand
 - c. Clay<Slit>Sand
 - d. Clay=Slit=Sand
8. Which of the average composition of the earth's crust is correct:
- a. Oxygen- 46.6%
 - b. Silica- 27.7 %
 - c. Aluminum- 8.0%
 - ~~d.~~ Both A&B
9. ----layer of atmosphere closest to the earth.
- ~~a.~~ Troposphere
 - b. Stratosphere
 - c. Exosphere
 - d. Mesosphere
10. Jet streams are occurred into the
- a. Troposphere
 - ~~b.~~ Stratosphere
 - c. Exosphere
 - d. Mesosphere

Question-2: short answer (any Two)

- Definition*
- 1. Objectives of Environmental Education
 - 2. Lithosphere
 - 3. Functions of ecosystem
 - 4. Structure of atmosphere

Question-3: long answer (any one)

- 1. Concept and scope of Environmental Science
- 2. Structure and composition of Environment
- 3. Concept, Kinds and components of ecology

Assignment - 2

B.Com (Bank Management)

Part - I

Student Name - Samruddhi Mohit Sheth.

Subject - Financial Accounting

Roll No - 04

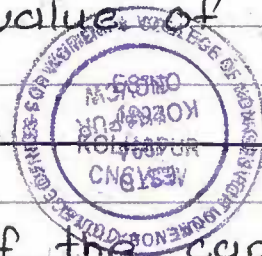

Ques. Define working capital with its need and importance.

Working capital management is also one of the important parts of the financial management. It is concerned with short-term finance of the business concern which is a closely related trade between profitability and liquidity. Efficient working capital management leads to improve the operating performance of the business concern and it helps to meet the short term liquidity. Hence, study of working capital management is not only an important part of financial management but also an overall management of the business concern.

Working capital is described as the capital which is not fixed but the more common uses of the working capital is to consider it as the difference between the book value of current assets and current liabilities.

• Meaning: -

Working Capital is a part of the capital which is needed for meeting day to day requirement of the business concern. For example, payment to

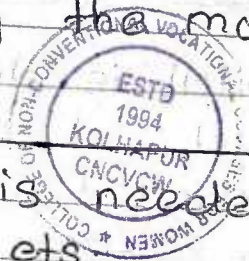

creditors, salary paid to workers, purchase of raw materials etc., normally it consists of recurring in nature. It can be easily converted into cash. Hence, it is also known as short-term capital.

• Definitions :-

According to the definition of Mead, Baker and Malott, "working capital means Current Assets".

• The needs for working capital are as given below:-

1. Adequate working capital is needed to maintain a regular supply of raw materials, which in turn facilitates smoother running of production process.
2. Working capital ensures the regular and timely payment of wages and salaries, thereby improving the morale and efficiency of employees.
3. Working capital is needed for the efficient use of fixed assets.
4. In order to enhance goodwill a healthy level of working capital is needed. It is necessary to build a good reputation and to make payments to creditors in time.

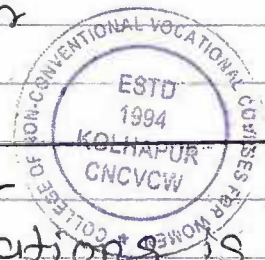

5. Working capital helps avoid the possibility of under-capitalization.
6. It is needed to pick up stock of raw materials even during economic depression.
7. Working capital is needed in order to pay fair rate of dividend and interest in time, which increases the confidence of the investors in the firm.

• Importance of working Capital:-

Working capital is a vital part of a business and can provide the following advantages to a business.

1. Higher return on Capital:- Firms with lower working capital will post a higher return on capital. Therefore, shareholders will benefit from a higher return for every dollar invested in the business.
2. Improved credit profile and Solvency:- The ability to meet short-term obligations is a prerequisite to long-term solvency. And it is often a good indication of counterparty's credit risk. Adequate working capital management will allow a business to pay on time its short-term obligations. This could include payment for a purchase of raw materials, payment of salaries, and other operating expenses.

3. Higher profitability :- According to some researchers, the management of account payables and receivables is an important driver of small businesses profitability.
4. Higher liquidity :- A larger amount of cash can be tied up in working capital, so a company managing it efficiently could benefit from additional liquidity and be less dependent on external financing. This is especially important for smaller businesses as they typically have limited access to external funding sources. Also, small businesses often pay their bills in cash from earnings so efficient working capital management will allow a business to better allocate its resources and improve their cash management.
5. Increased business value :- Firms with more efficient working capital management will generate more free cash flows which will result in higher business valuation and enterprise value.
6. Favorable financing conditions :- A firm with a good relationship with its trade partners and paying its suppliers on time will benefit from favourable financing terms such as discount payments from its suppliers and banking partners.

7. Uninterrupted production:- A firm paying its suppliers on time will also benefit from a regular flow of raw materials, ensuring that the production remains uninterrupted and clients receive their goods on time.
8. Ability to face shocks and peak demand:- Efficient working capital management will help a firm to survive through a crisis or ramp up production in case of an unexpected large order.

Que 2 Explain in detail concept of working capital with its components.

→ Concept of working capital:-

Working capital can be classified or understood with the help of the following two important concepts.

A. Gross Working Capital :- Gross working capital is the general concept which determines the working capital concept. Thus, the gross working capital is the capital invested in total current assets of the business concern.

Gross working capital is simply called as the total current assets of the concern.

$$\text{Gross working Capital} = \text{Current Assets.}$$

B. Net working capital :- Net working capital is the specific concept, which considers both current assets and current liability of the concern.

Net working capital is the excess of current assets over the current liability of the concern during a particular period.

If the current assets exceed the current liabilities it is said to be positive working capital; if it is reverse, it is said to be Negative working capital.

$$\text{Net working Capital} = \text{Current Assets} - \text{Current Liabilities.}$$

• Components of working Capital:-
 Working capital is composed of various current assets and current liabilities, which are as follows:

A) Current Assets:- These assets are generally realized within a short period of time, i.e. within one year.
