

Teachers use ICT enabled tools for effective teaching – learning process.

At CNCVCW, teachers use ICT (Information and Communication Technology) enabled tools to enhance and facilitate the teaching-learning process. These tools encompass a wide range of digital resources and technologies, including computers, laptops, LCD projectors educational software, online platforms, and internet-based resources. By integrating ICT into their teaching methods, teachers create more engaging and interactive learning environment. They use multimedia presentations, videos, ppt's and interactive enactment to present concepts in a visually appealing manner, catering to different learning styles and abilities. This approach attracts students' attention and stimulates their interest, leading to improved information retention and understanding. ICT tools also enable teachers to access a wide range of online educational resources, including e-books, articles, research papers, and educational websites. This empowers them to enhance their teaching materials, update their course content regularly, and incorporate real-world examples into their teaching lessons. Our college is well equipped with computer labs, language lab, Drafting and Paper Cutting Lab, Interior Design Studio, class rooms and staff cabins are well equipped with LAN and internet connection. Printers with scanners are installed in office and library
